# How to use

## Full-bar stickers for 8-bar xylophones

Each sticker covers a whole bar, so the xylophone's own colors are hidden and the child only sees the colors of the book, the songs and the app.

## 1. Measure the longest bar (DO / C): width and length

**WIDTH + LENGTH**

Measure edge to edge, with the bar on the xylophone.

2. Find the size closest to your measurement in the table and print only that page.
3. Print at actual size (100%), not "Fit to page", on sticker paper (matte vinyl is best).
4. Cut each bar along the dotted line, then cut out the two peg circles.
5. Stick each bar on its own, from the longest (C / DO) to the shortest (C• / DO•).

| Size | Width | Length of C (longest) | Length of C• (shortest) | Page |
|---|---|---|---|---|
| **M** | 2.7 cm | 10.5 cm | 7.0 cm | **p. 2** |
| **S** | 2.3 cm | 8.9 cm | 6.0 cm | **p. 3** |
| **XS** | 1.9 cm | 7.3 cm | 4.9 cm | **p. 4** |
| **XXS** | 1.5 cm | 5.8 cm | 3.9 cm | **p. 5** |

The classic 8-bar toddler xylophone (2.7 × 10.5 cm) is size M. If a sticker is a bit long, trim the round ends.

## Equivalence between both notations

| C | D | E | F | G | A | B | C• |
|---|---|---|---|---|---|---|---|
| = DO | = RE | = MI | = FA | = SOL | = LA | = SI | = DO• |

Every bar has both: solfège in big letters (DO, RE, MI…) and letter names below (C, D, E…).

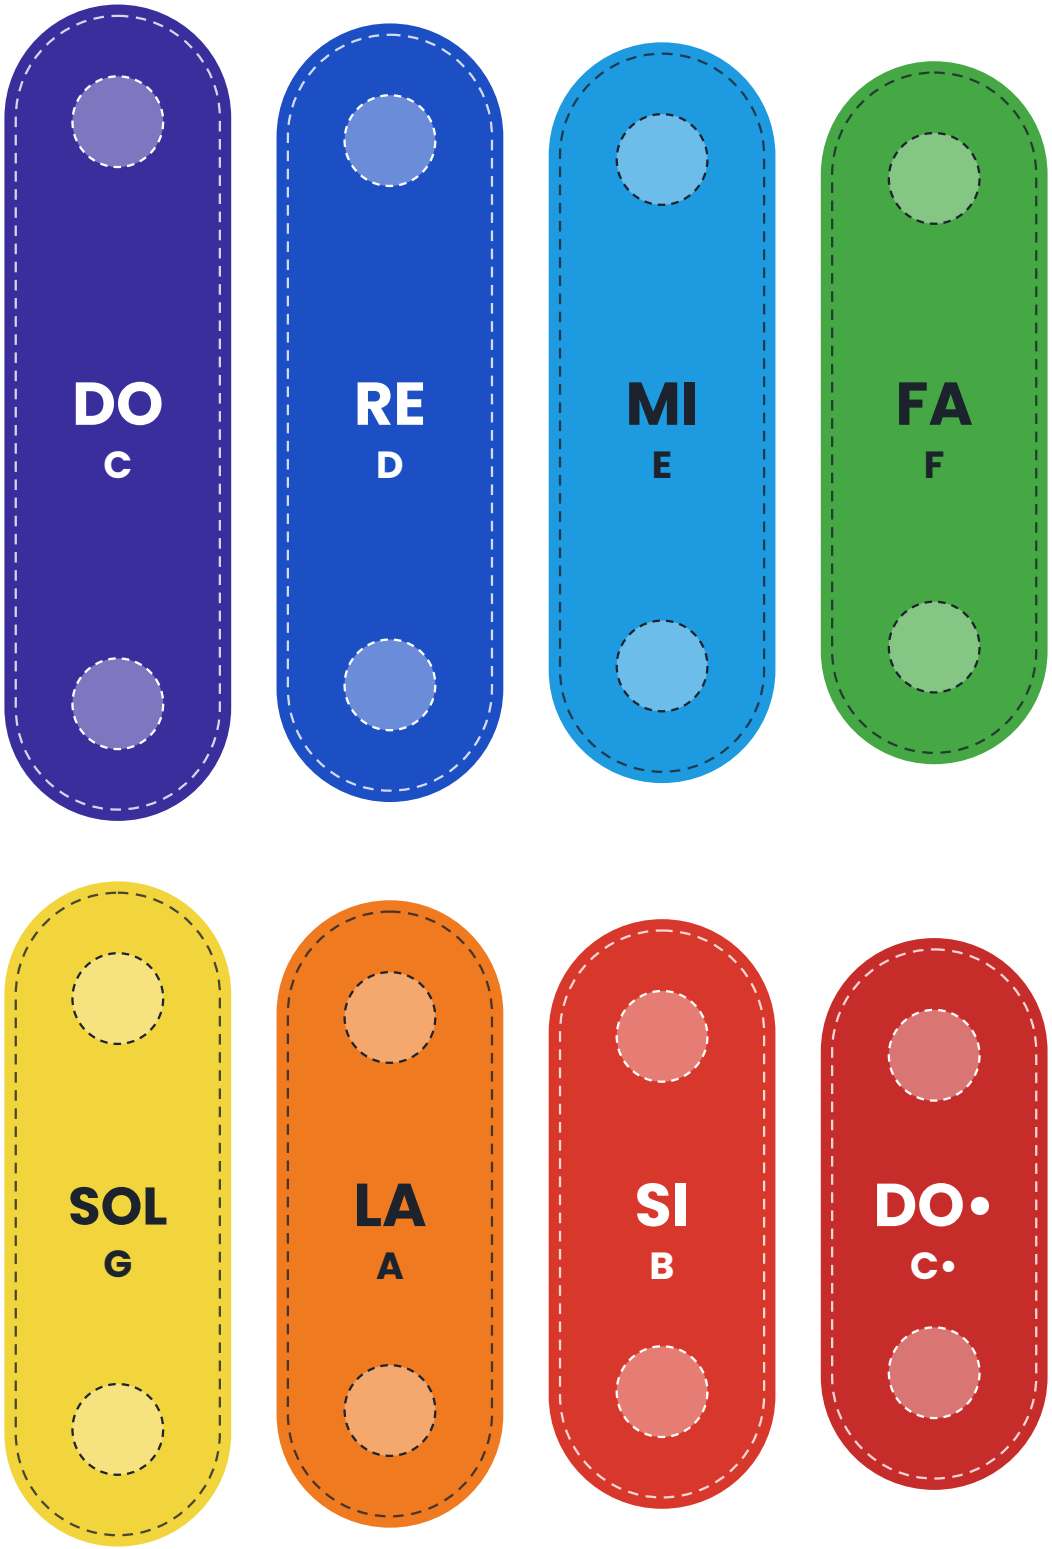

Safety: small parts, choking hazard. Not for children under 3. An adult applies the stickers.
