How to use

Color stickers for your xylophone

Does your xylophone have different colors than the book? With these stickers it will have the same colors as the songs, the book and the app.

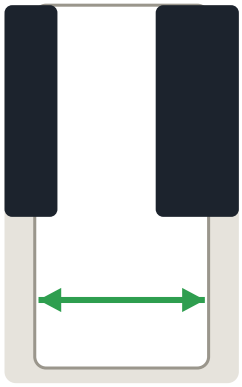

1. Measure the width of one bar

WIDTH: measure here
from one side of the bar to the other

LENGTH: no

Example: 2.7 cm → size M

On a piano or keyboard, measure one white key

2. Find your measurement in the table and print only the page for your size.
3. Print at actual size (100%), not "Fit to page".
4. Use printable sticker paper (white matte vinyl is best). Cut along the dotted line.
5. Stick each color on its bar: the longest bar is C (DO), the shortest is C• (high C).

Size	Sticker	Bar width	Page
XS	12 mm	1.5 to 2.0 cm	**p. 2**
S	18 mm	2.1 to 2.6 cm	**p. 3**
M	23 mm	2.7 to 3.3 cm	**p. 4**
L	30 mm	3.4 to 4.0 cm	**p. 5**
XL	36 mm	over 4.1 cm	**p. 6**

Equivalence between both notations

C	D	E	F	G	A	B	C•
= DO	= RE	= MI	= FA	= SOL	= LA	= SI	= DO•

Every page has both: solfège on top (DO, RE, MI…) and letter names below (C, D, E…).

Safety: Small parts: choking hazard. Not for children under 3. An adult applies the stickers.

This line must measure 5 cm

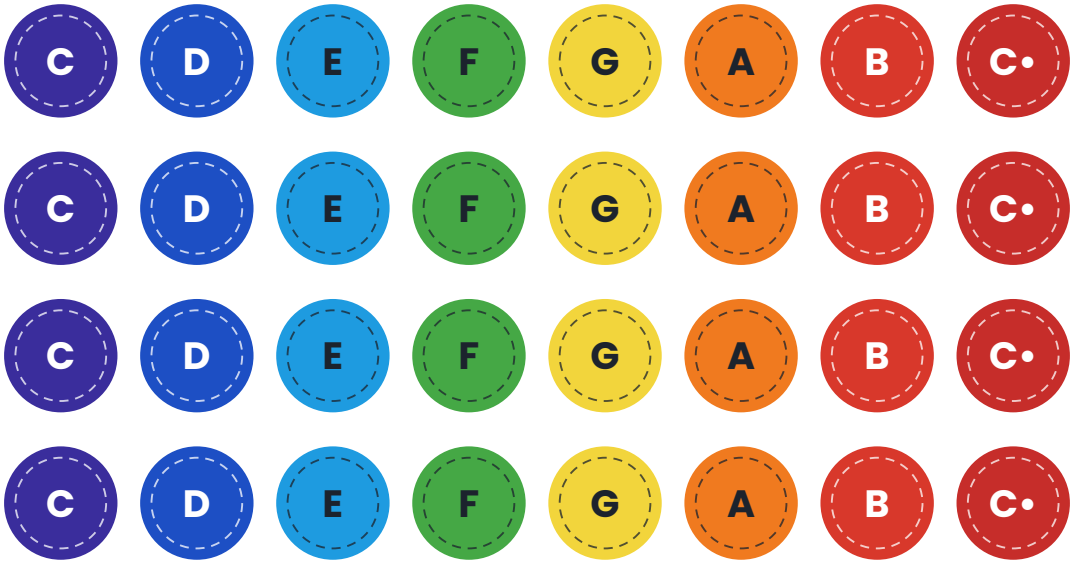

Size XS · 12 mm stickers · bars 1.5 to 2.0 cm

XS

Solfège (syllable notation: DO, RE, MI, FA, SOL, LA, SI) Cut along the dotted line

Letter names (alphabetic notation: C, D, E, F, G, A, B) Cut along the dotted line

This line must measure 5 cm

Small parts: not for children under 3. An adult applies the stickers.
